Description

Short backset, swing-bolt deadlocks suitable for narrow stile sliding and swing doors. Positive action deadbolt is hooked to engage and lock into a latching or security strike when the bolt is in the thrown position.

Deadbolt is locked or unlocked by either key, turnknob, escape turn or lever handle.

Features and Specifications

- 360 Degree key rotation for positive locking

- Sintered stainless steel bolt for strength

- Available in timber, fabricator and metal door fixing configurations.

- Designed and made in Australia for the specific needs of the Australian market

- Supported by a vast array of furniture options including case fix turns, surface mounted lever and turns and through fixed brass plate furniture.
