Unity Entrance Lock

Designed specifically for the Australian market, the Unity Entrance Lock has patented digital deadlocking technology allowing you to lock both the internal and external handles on your door.

The Unity Entrance Lock has three modes: Unlock (green), Locked (yellow) and Secure (red) - all indicated by an inbuilt LED light.

Controllable by either your Yale Home App, Contactless Key Tag or the Yale Smart Keypad*, the Unity Entrance Lock provides you with a range of options to control your lock.

The Yale Home App allows you to lock and unlock your door, grant access to others and keep track of visitor access, all via your smartphone. Grant users one-time access, access for a set period of time or a date range and avoid any lost, stolen or copied keys.

Using Bluetooth, Wi-Fi, GPS and the Yale Home App, the auto unlock feature unlocks your door as you approach it.

The Yale Unity Nexion Retrofit Kit* offers customers the option to upgrade the Lockwood Nexion Mechanical and Nexion Keyless Entrance Locksets to a Yale Unity Entrance Lock. This includes a latch and 3 sizes of strike plates to cover 35-45mm thick jambs. With their metallic finish, the latch and strike plates ensure a clean, high-quality appearance. The latch and strike plates are also designed to accommodate Yale Unity's door position sensor.

This door position sensor checks the status of the door and tells you if your door is open or closed, giving you the peace of mind that your door is secure when locking up.

The Unity Entrance Lock can be upgraded using the Yale Connect or Connect Plus Wi-Fi Bridge*. This allows you to access your lock from wherever you are in the world. Remote features include the ability to lock, unlock, manage user access and update lock settings.

The Yale Connect Bridge enables integration with your Google, Samsung or Alexa smart home hubs. The Unity Entrance Lock is also Apple HomeKit compatible (see Lock Compatibility Table on p.29 for details).

With the Yale Smart Keypad*, you can lock and unlock your door via PIN codes.

The durable metal Yale Unity Installation Template* is tradesperson friendly - particularly where multiple or ongoing installations are required.

The Unity Lock meets Australian lock standards AS4145.2:2008, SL8 and D8.

Available in Silver and Matt Black finishes.

*Yale Connect, Connect Plus Wi-Fi Bridge, Yale Smart Keypad, Yale Unity Nexion Retrofit Kit and Yale Unity Installation Template sold separately.
NOTE: Yale Unity Nexion Retrofit Kit not suitable for use on fire door applications.
