

Brunel Knurled Door Stop

AW600-grp

The knurled cylinder door stop is a wall fitted door stop that features a modern diamond-cut **knurled** pattern, with a plain smooth finish along the base and a black rubber top to avoid marks and indentations on doors. **Matching knurled door handles** and cupboard fittings are available to match this contemporary doorstop. It is a small but beautiful way to add touches of texture, colour and style that creates a **bold yet uncomplicated statement**. Originating from industrial settings, knurled hardware is aesthetically **ultra-modern** but also offers a number of practical features including tactile easy grip and is **resistant to wear and tear**.
