

The Allweather external folding system is a robust multifolding system designed for heavy doors in external folding applications. The system is packed with features such as complete adjustment capabilities at every hanger and pivot point, unique rack and pinion lateral adjustment, top pivot and Stainless steel components, suitable for both left and right hand openings.

The robust aluminium track allows for a 90kg weight capacity whilst the aluminium & polypropylene guide channel set makes operation smooth and quiet. With optional seals and locks, the AllWeather External folding system is suitable for external applications including patio doors and alfresco entertaining areas.

**FEATURES**

Track: Enclosed aluminium track Clear Anodised - top mount  
Pivot Set: Top track and bottom sill mounted, reversible pivot sets

Key features: Complete adjustment capabilities at every hanger & pivot point  
Hinges: 100mm Stainless steel butt hinges with D-handle & offset options
