

## Description

---

The Dormakaba door loop 260 is a stainless steel spiral with installation case for inserting flexible connection cables of up to 7.5 mm diameter. This guarantees a crush-free and tamper-proof connection between the leaf and frame of doors and windows.

## Features

---

- Installation dimensions of the installation case (W x H x D): approx. 24 x 260 x 17 mm
- Length of flexible spiral 155mm
- Maximum opening angle 110 degrees
- Suits door hinges with a pivot point of up to 18mm
