

# IS7340si, IS7345si, IS7350si, IS7355si

These translucent polycarbonate astragal seals suit 10mm and 12mm thick frameless glass doors, incorporating high temperature semi-transparent silicone gaskets. With an easy self-adhesive application, the seals are available with a silicone flexible bubble compression seal, or a silicone flexible twin-fin wiping seal, to suit various glass door applications.

All seals are designed to suit 10mm and 12mm frameless glass doors, providing ambient and medium temperature smoke containment, along with draught and dust protection. The high performance silicone gaskets also protect glass doors from colliding during closure.

IS7340si and IS7345si suit 10mm glass  
IS7350si and IS7355si suit 12mm glass

## Gap size

- Min. 7mm / max. 9mm (prior to installation)

## Standard lengths

- 2250mm
- Also available in: 250mm increments from 1000mm to 5000mm

## Standard colours

- Translucent UV stabilised polycarbonate with semi-transparent silicone bubble or twin-finned gasket

## Approval/s

- Conforms with BCA Specification C3.4 smoke sealing requirements
