+ NCC compliant leverset range

+ Designed to IP54 standards

+ Fire rated leverset model variants available

+ Host of RFID media options including cards, stickers, FOBs, and wristbands

When **convenience** meets **security**, the Carbine CEL2 range is the ideal locking solution for your home, granny flat, investment property or small business office.

For fire rating details refer to www.carbine.com.au/fire-rated

Fire Rated | **IP54 RATED** | **NCC Compliant**

Never worry about a lost key again as CEL2 has several keyless access options including RFID accessories, 4 to 8 digit codes, NFC^ and more.

CEL2 comes in a leverset and deadbolt models in both satin nickel and matte black. There is also a 2 hour fire rated variant available for each leverset model making CEL2 a great selection for use on emergency exits or fire doors.

CEL2 has been designed to IP54 standards and all leverset models are NCC compliant.

^We recommend checking your smartphone before purchasing or installing. If your phone is not compatible we suggest using the RFID sticker on the back of your phone.

- **SHORT STAY RENTAL**

There are three CEL2 models — a leverset, deadbolt and fire rated leverset. Each option allows for an easy and convenient access to your home, investment property or office with several modes of access by way of a four to eight digit code, NFC enabled smart phone or via a RFID FOB, card, sticker or wristband.

* We recommend checking your smartphone before purchasing or installing. If your phone is not compatible we suggest using the RFID sticker on the back of your phone.

The Carbine CEL2 leverset or deadbolt models offer your family and tenants effortless access without the worry of losing a key.

FEATURES

+ **Low profile touchscreen**

+ **Fits in a standard 54mm lockset hole with no additional drilling required**

+ **Suits door thicknesses from 35-51mm thick doors**

+ **60-70mm adjustable backset**

+ **C4 Keyway - 6 pin PD style cylinder & keyed to a 5 pin key**

+ **IP54 Rated**

+ **NCC Compliant Lever**

+ **Fire Rated for up to 2 hours (Leverset model variant)**

+ **0-9 digital touch pad allows for 100 unique user pin codes or user RFID cards**

+ **Seven entry options including;**
  4-8 digit code, RFID Card / Sticker / Wristband / Key FOB, Key override, and NFC enabled smartphone*

+ **Auto-lock or auto-lock delay timer (auto-lock off by default. Time range 5-99 seconds) (Deadbolt models 10-99 seconds)**

+ **Single-use user code which can only be used once to unlock the lockset**

+ **Guiding code. A set of random codes to be entered prior to any user code to prevent code probing**

+ **Volume control to turn on/off door lock operation volume**

+ **Requires 4 x AA batteries (not included). We recommend Duracell® batteries for optimal performance**

+ **Available in satin nickel or matte black**
