

Every home has a signature, and with Iver's whole-of-home offering, discover the perfect expression of your style and apply this seamlessly throughout your home.

### Brunswick Collection

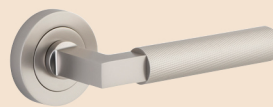

The Brunswick collection incorporates elements of Bauhaus design, introducing a unique tactile experience that distinguishes it from other ranges.

Featuring diamond-cut cross knurling across the collection, this highly sought-after detail is perfect for contemporary interiors.

Crafted to suit various finishes, the knurled pattern is stunningly showcased in PVD Brushed Gold, while Matt Black delivers a modern look. As textured surfaces remain popular in-home decor, the Brunswick collection offers a great option for those seeking a distinctive accent.

The Brunswick collection features matching door levers, pull handles, cabinet pulls, a cupboard knob and privacy turn. This range is also available as an Iver kit in Passage, Privacy and Entrance.
